Experience and Accomplishments

Marshall Field's June 02 - Present
(612) 375-3029 ext. 4820

Graphic Designer / Copy Editor

Designing, editing, proofing and writing copy for in-store signing using a Unix-based system and QuarkXPress. Ensure accurate delivery of signs into the stores.

- Developed new sign layouts
- Assisted in creation of a portfolio for the Signing Department
- Worked with numerous special projects involving graphic design
- Received an *E of Excellence* Award for enthusiasm

NCS Pearson May 01 - June 02
(800) 336-3426

Freelance Web Designer

Day-to-day production of Web page components for NCS Pearson's public Web site to include HTML, images, JavaScript, CGI Scripts, testing of pages, promotion of files from development to staging to production, coordinating interactions with content contributors in NCS Pearson divisions, and check Web sites for usability issues.

- Maintained thirteen Web sites with daily updates and modifications
- Assisted in redesign of the corporate Web site by giving advice on design ideas and usability
- Created an intranet Web site using Microsoft Sharepoint Team Services and FrontPage 2002 with a major design change from out-of-box design
- Worked closely with a team of seven both locally and remotely
- Created conceptual designs including paper and Web-based models

Brain Magnet Oct 00 - May 01
(320) 529-4853

Web Designer / Programmer

Created, updated, and designed Web sites; including designing logos, mapping layouts, making site templates and icons, programming Web pages, writing content, capturing digital photos, and troubleshooting.

- Aided in the design of at least eight new and unique Web sites
- Brainstormed ideas for diverse layouts and navigational behaviors
- Studied modern and thrilling technologies

Firepond May 00 - Sept 00
(952) 707-8580

Web Designer / Programmer Intern

Updated and designed company's Web site, attended technical conferences, created technical presentations, consulted to other companies for Web-related applications, customer interaction, fulfilled a variety of roles including creating an internal on-line education system, a Web-based retirement planning application, and creating proposals for future projects.

- Worked directly with the head Web master to learn details on Web site design and usability
- Assisted at least four companies with Web-based products using languages such as SilverStream
- Wrote technical paper which drew on my experiences as a consultant and web master
